

# Actividad 1 Hello World

Parcial 2

Materia: Desarrolla aplicaciones Web con conexión a bases de datos.

Nombre: Serrano Quevedo Angie Judith 5pv.

The screenshot displays the XAMPP Control Panel v3.3.0 on the left and Visual Studio Code on the right. The XAMPP panel shows the status of various services: Apache (running), MySQL (running), FileZilla (stopped), Mercury (disabled), and Tomcat (disabled). A log at the bottom of the panel shows the sequence of events: Mercury and Tomcat modules were disabled, Apache and MySQL were started, and the control panel became ready. The Visual Studio Code interface shows a file explorer with a project named 'TABLAS5PM' containing folders for 'css', 'html', 'img', and 'php'. The 'php' folder contains 'greeting.php' and 'hello.php'. The 'hello.php' file is open in the editor, showing a PHP script that outputs 'Hola a todos'. Below the code editor, a web browser window is open at 'localhost/tablas5pm/php/hello.php', displaying the output 'Hola a todos'. The browser's address bar and the page content are visible. The browser's user interface shows the user 'ANGIE JUDITH SERRANO QUEVEDO' with the email 'angie20524@cbtis75.edu.mx'.

XAMPP Control Panel v3.3.0 [ Compiled: Apr 6th 2021 ]
